
HOW TO USE (PHOTOSHOP and PHOTOPEA) SMART OBJECT MOCKUPS

1. Open the PSD mockup file in Photoshop (CC2020+) or the Photopea online editor.
2. Locate and double-click the Smart Object layer, then insert or paste your design.
3. Save the Smart Object, close it, and return to the main original file. (Optional: Adjust color layers to match your branding).
4. Export your final mockup as a high-resolution JPG, PNG, or WebP for web, print, or client presentations.
