Tutorial

Hello, thank you for purchasing my template!

For the correct work of the template you need to install all the used fonts. (Links in the **Font.txt** file)

Replace Logo

Import your logo in the project.
Open «**01. Edit Comps**» folder
Open «**Logo**» folder.
Open «**Logo**» comp.
Drag and drop your logo to timeline.

Add Tagline

Open «Tagline» composition.
Change the text layer

Add Audio

Double click composition «**Audio**»
Drag and Drop your «music»
into comp timeline.

Customization

- Open «01. Edit Comps» folder
- Open «Control» folder.
- Open «Control» comp.
- Select «Control» layer for change settings

Done

Render

Comp and go to the
**Composition>Add to Render
Queue**

if you want your final render
to have audio, click on the
Output Module and check the
Audio Output
