

Quick Tutorial: Modern Creator Subtitle!

Thanks for purchasing this template! Follow these steps to customize it in Adobe After Effects.

What You'll Need:

- Adobe After Effects
- The template ZIP file
- Your images or videos for placeholders

Step 1: Open the Project

- Extract the ZIP file and open the .aep file in After Effects (File > Open Project).

Step 2: Edit Text

- Select text layers, and update the text with your own (use the Text tool: Ctrl+T/Cmd+T).

Step 3: Replace Media

- Go to the “EDIT” folder > “PLACEHOLDER” composition.
Import your images/videos (File > Import > File). Drag your media into the Timeline, replacing the placeholders. Adjust scale/position as needed.

Step 4: Adjust Colors

- Open the Timeline Layer “Global Control”. Tweak colors using effects like “Fill” or “Color Control” in the Effects Controls panel.

Step 5: Render Your Video

- Open the “All Stories” composition in the Project panel.
- Preview your video (Spacebar to play).
- Go to Composition > Add to Render Queue, set the output location, and click “Render” to export.
