

Action FX 8 Bit Pixelated Fires

QUICK GUIDE

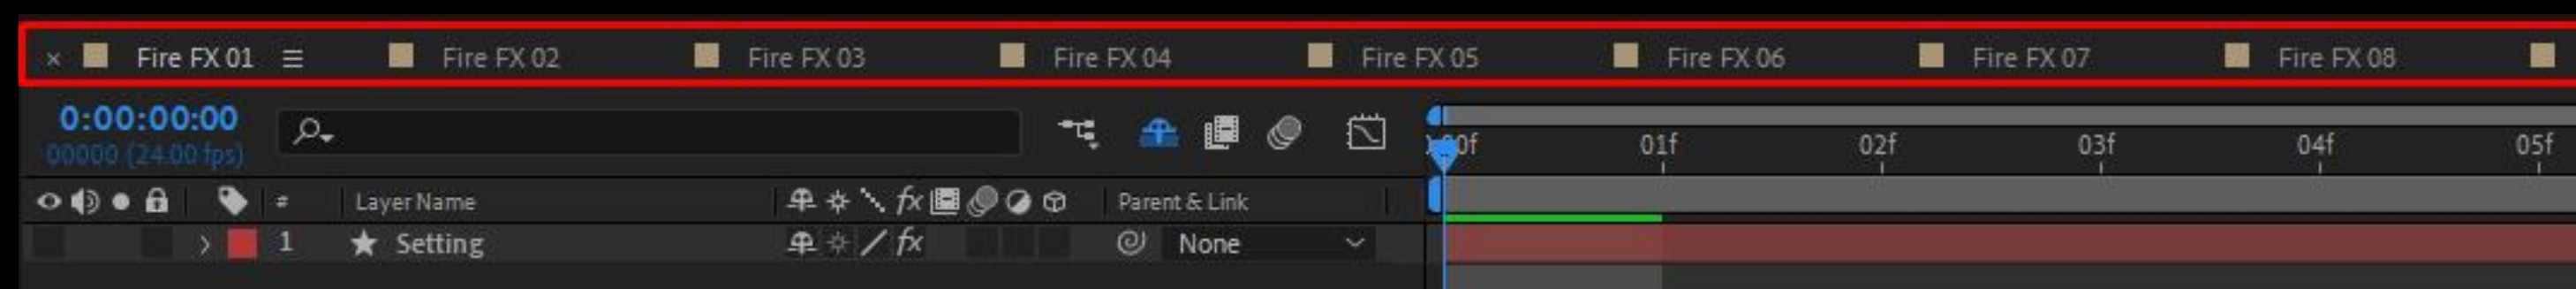

HOW TO USE

1- Unzip the downloaded zipped file.

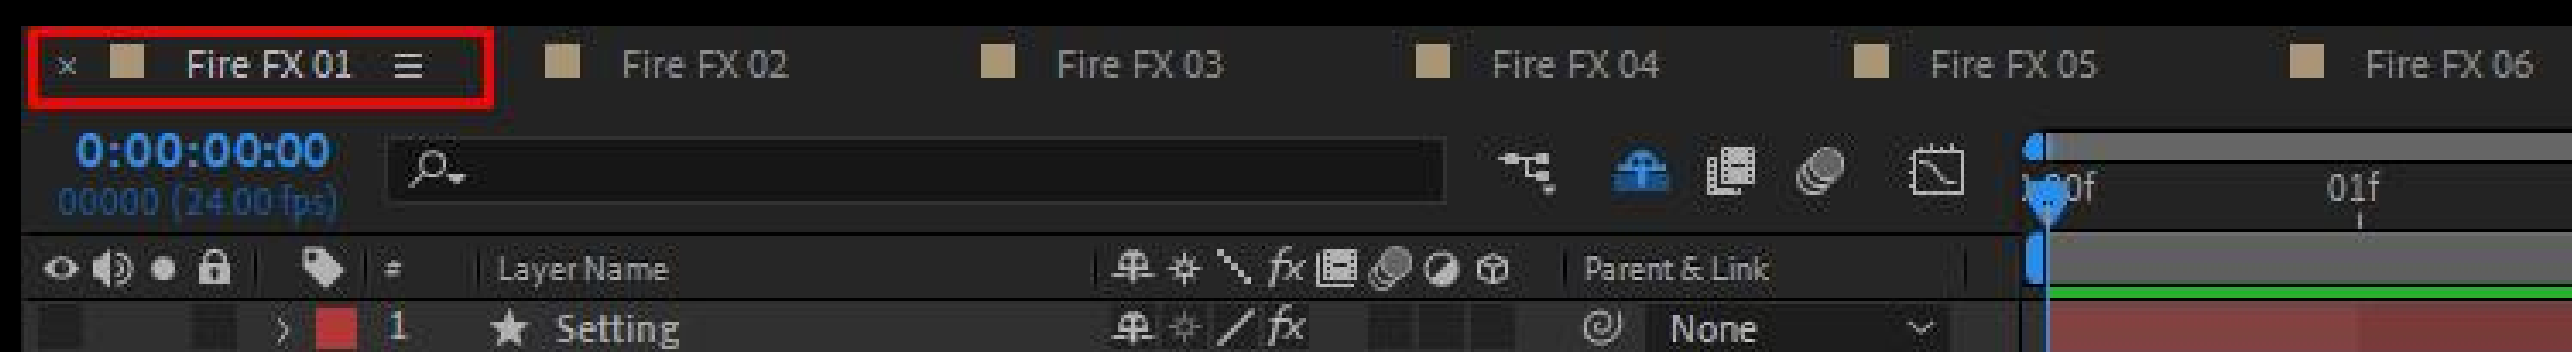

2- Open After effects.

3- Import the selected Ae File to the **Project Panel**.

4- Above the **Timeline panel**, you can see the **Composition Tabs**, here you can switch between all opened comps.

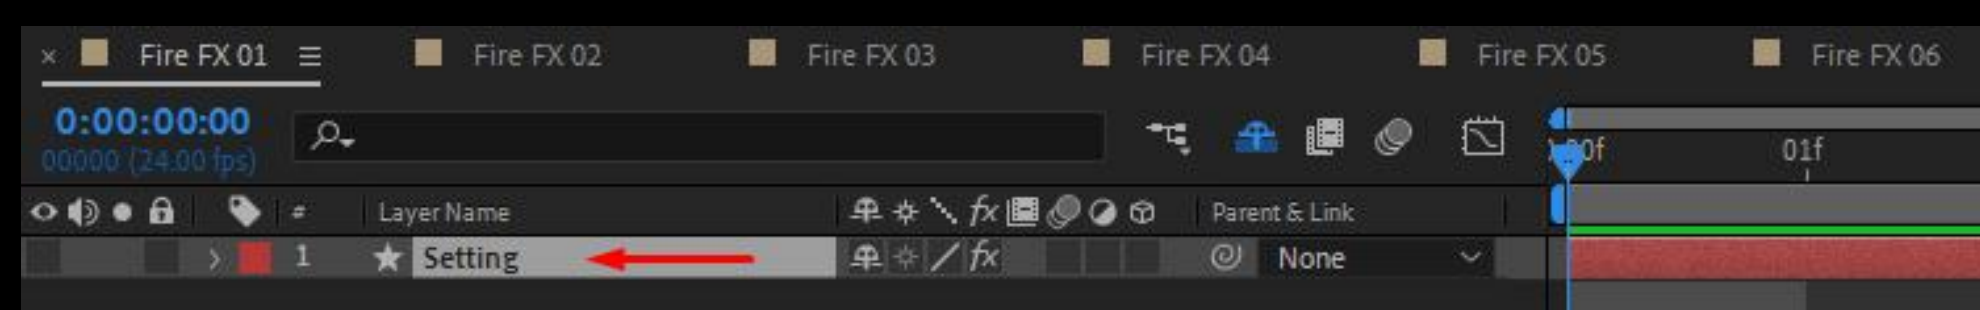

5-For example, click on Fire FX 01 to show its contents.

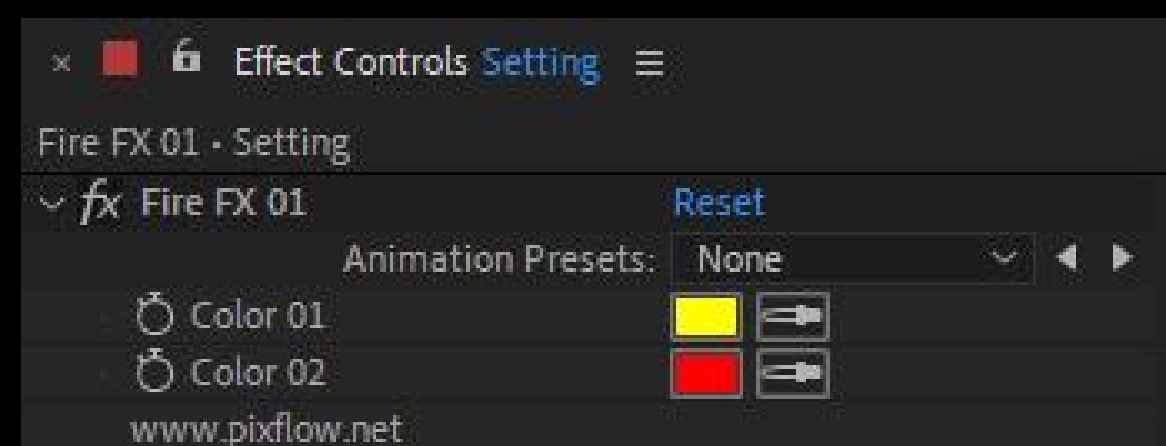

6. Change Project Setting

● In the Timeline, look for the layer named: **Setting**

● Select the layer.

● Open **Effect Controls**: Press (**F3** on keyboard).

● Click the color box and pick your desired color.

● The new color will automatically update throughout the project.
