

Risograph plugin for After Effects manual

(Adobe + OpenFX) (Windows + Mac)

How to install

The easiest way to install and license is by using the [aescrpts + aeplugins manager](#). To install a trial you can select 'Add Trial' from the 'Account' menu.

Manual install

Copy the required plugin file corresponding to your operating system to the folder specified below.

After Effects (.aex or .plugin):

Windows: \Program Files\Adobe\Adobe After Effects \Support Files\Plug-ins

Mac: /Applications/Adobe After Effects /Plug-ins

OpenFX (.ofx.bundle):

Windows: \Program Files\Common Files\OFX\Plugins\Win\

Mac: /Library/OFX/Plugins/Mac/

License activation

Adobe: apply the effect and use Register in the effect options.

OpenFX: open About & License, paste the aescrpts license code, then press Register License.

Use Deactivate License before moving the license to another computer. Trial mode adds a watermark until a valid license is activated.
