Layer Color Guide

General

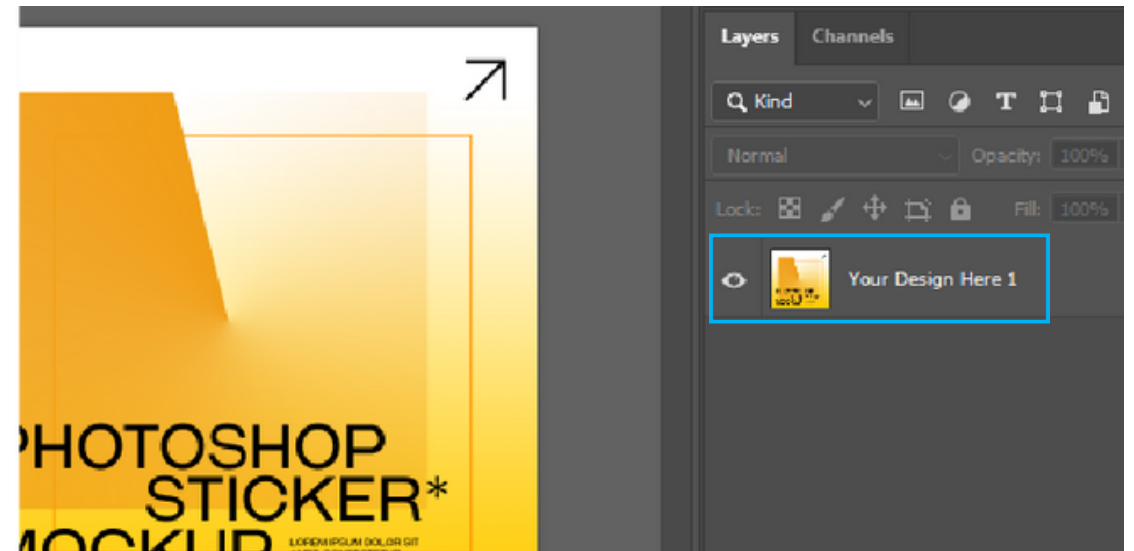

-  Blue for [Your Design] that you can insert.
-  Green for color change.
-  Red for effects and template objects [not required to be replaced, but still editable.]

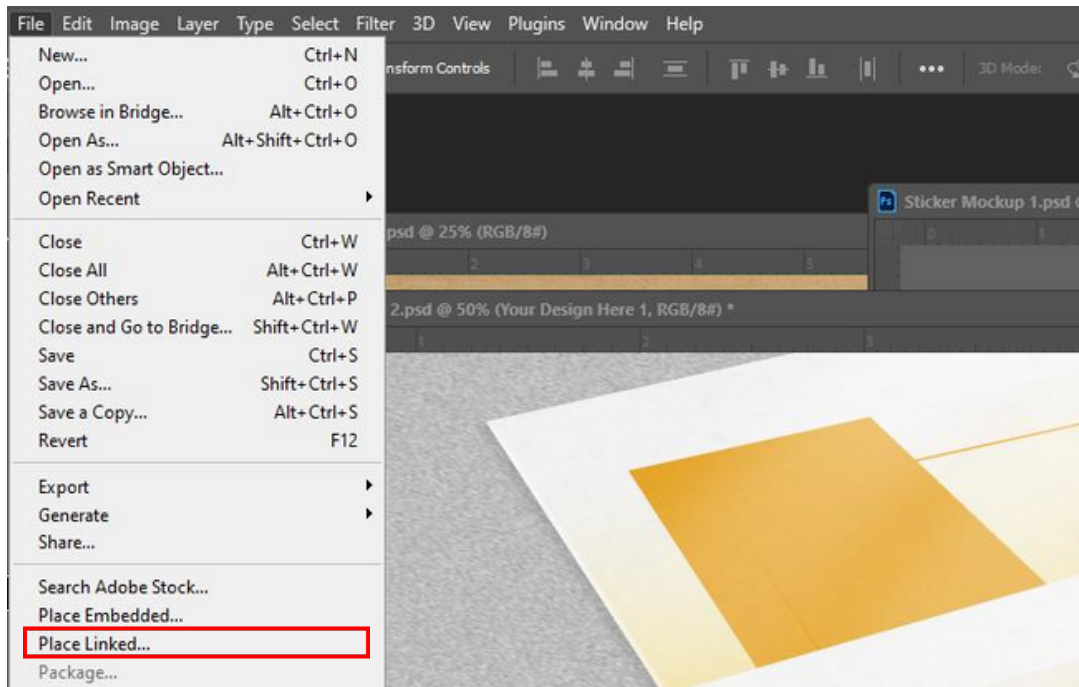

Adding Your Design to a Mock-Up

Replace

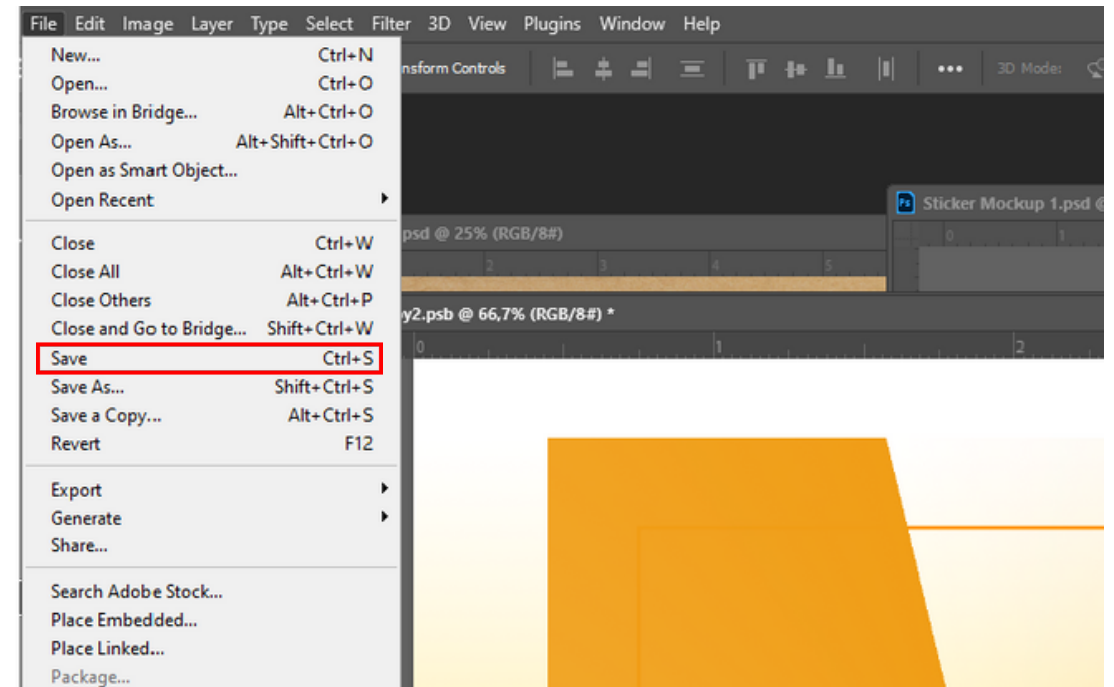

1. Open the PSD file in Photoshop.
2. Double-click on the thumbnail of the [Your Design Here] layer in the Layers palette. [It is highlighted in Blue. If you don't see it, open the folder.]
3. Photoshop will pop up open a new document in a new window. [Replace you design in this new window.]

4. Click File > Place Linked and navigate to the file on your computer or just drag and drop your design into the window you just opened.

5. Set your design as you want. Go to File, then click Save or Ctrl+S [for PC] or Cmd+S [for Mac]. Then close this tab. Now your image is placed into the mock-up.

Customizing Your Design's Color

Color

1. Double-click on the thumbnail of the Color Picker layer in the Layers palette. [It has color box and It is highlighted in **Green**. If you don't see it, open the folder.]
2. Photoshop will pop up open a new window, pick the color you want and Click OK. _____
