

Thank you for purchasing this template. This documentation file includes everything you need to know in order to customize your project and get started.

1. How to replace logo

Open composition "Step 1. Add Your Logo"

Import your logo, then drag and drop it into the Layers panel.

Make sure you rescaled and adjusted the position, as this is important for the final look.

2. How to edit text

Open one of compositions named "Step 2. Add Your Text".

Select the "Horizontal Type tool".

Edit text.

3. Color Customization

Open composition "Step 3. Adjust Colors"

Select layer "CONTROLS".

Open panel "Effects Controls".

Edit colors.

4. How to add audio

To add the music tracks open the comp named "Step 4. Render".

Drag and drop track into the Layers panel.

5. Render

Once you have set up your project, open up composition "Step 4. Render" then go to "Composition -> Add to Render Queue", set your settings and hit render.
